

2018 Holiday Partners
Brighten the holidays for someone in need!

Each year thousands of Maine residents, including more than 1,000 children, experience a serious episode of mental illness and are treated at Spring Harbor Hospital, Maine’s most visited psychiatric facility and home of the Glickman Family Center for Child & Adolescent Psychiatry. Time spent hospitalized is stressful and isolating for patients and their families, especially during the holidays.

You can make a difference by joining us as a Holiday Partner! Through your generous donation of new, unopened and unwrapped gifts or cash you can help brighten the day of someone in need.

Holiday Partners can adopt an age group, hospital unit, community-based outpatient program or simply select items on the *Wish List* below or on our [Amazon Wish List](#). Cash donations may be made [online](#).

For questions about the Holiday Partners program, or to schedule a large drop off, please contact [Abigail Borchers](#) in the Development Office at 207-661-6046. Thank you for your interest!
